

YVAN MACIEL

Mechanical Engineering Department, Laval University
Quebec city, Quebec
Canada G1V 0A6

Tel: 1-418-656-7967
yvan.maciel@gmc.ulaval.ca

Membre of Ordre des ingénieurs du Québec as an Engineer.

RESEARCH INTERESTS

Fluid dynamics, experimental fluid dynamics, turbulence, control of turbulence, aerodynamics, hemodynamics (biofluid dynamics).

EDUCATION

- Doctoral degree** October 1994
École Nationale Supérieure de l'Aéronautique et de l'Espace (Sup'Aéro), Toulouse, France. Laboratoire ONERA/CERT.
Supervisors: Mr. Christian Gleyzes, Dr. Jean Cousteix
Mention Très Honorable avec Félicitations (Very Honorable Mention with Congratulations)
- Master of Science, Aeronautics** June 1990
California Institute of Technology, Pasadena, USA
- Bachelor of Engineering, Honours Mechanical** June 1989
McGill University, Montreal, Canada
Aeronautical Option
David E. and Ronnie Schouela Prize (best Honours' thesis)
Ernest Brown Gold Medal for Highest Ability throughout the Undergraduate Course (Faculty of Engineering distinction)

WORK EXPERIENCE

- Full Professor**, Mechanical Eng Dept, Laval University since June 2004
- Research Associate**, Research center of CHU de Québec-Université Laval since March 2007
- Director** of B.Eng program in Mechanical Engineering, Laval University 2009-2011
- Director** of M.Sc program in Aerospace Engineering, Laval University 1998-2009
- Associate professor**, Mechanical Eng Dept, Laval University 2000-2004
- Assistant professor**, Mechanical Eng Dept, Laval University 1995-2000
- Postdoctoral fellow**, CFD Laboratory, Laval University Jan-July 1995

RESEARCH EXPERIENCE ABROAD

1 week at the 4th Madrid Turbulence Workshop, organised by the School of Aeronautics of Universidad Politecnica de Madrid, Madrid, Spain, July 2019. Stay supported by the COTURB project of the European Research Council (ERC).

5 weeks at the 2nd Madrid Turbulence Workshop, organised by the School of Aeronautics of Universidad Politecnica de Madrid, Madrid, Spain, May-June 2015. Stay supported by the COTURB project of the European Research Council (ERC).

Research year at the School of Aeronautics of Universidad Politecnica de Madrid, Madrid, Spain in 2014-15. Stay supported by the Multiflow program of European Research Council (ERC).

2 weeks in 2014 at Faculty of Aeronautics and Astronautics of Istanbul Technical University. Stay supported by the Scientific and Technological Research Council of Turkey (TÜBİTAK), 2221 Program.

5 weeks at the First Madrid Turbulence Workshop, organised by the School of Aeronautics of Universidad Politecnica de Madrid, Madrid, Spain in 2013. Stay supported by the Multiflow program of the European Research Council (ERC).

3 weeks at NORDITA/FLOW Programme on Turbulent Boundary Layers, sponsored jointly by Nordita and the Linné FLOW Centre, Stockholm, Sweden in 2010.

2 months at Royal Institute of Technology (KTH), Stockholm, Sweden in 2006. Stay supported by a Research fellowship of The Swedish Foundation for International Cooperation in Research and Higher Education (STINT).

TRAINING OF HIGHLY QUALIFIED PERSONNEL

Currently: 5 PhD, 2 MSc

Graduated: 2 postdoctoral fellows, 3 PhD, 10 MSc, 32 undergraduates

PROFESSIONAL AFFILIATIONS

American Institute of Aeronautics and Astronautics, Senior member

American Physical Society

American Society of Mechanical Engineers

Canadian Aeronautics and Space Institute (CASI)

Ordre des Ingénieurs du Québec

HONORS AND AWARDS

2001 National award for excellence in industry-education partnerships of the Conference board of Canada. Awarded for the Virtual environment option of the Master's program in aerospace engineering.

Most outstanding teacher in the Mechanical engineering dept., Distinction given 3 times by undergraduate students, Galas du Mérite étudiant 1997, 2002 and 2009 of l'Association des étudiant(e)s en sciences et génie de l'Université Laval, AESGUL.

All-Star Professor of the Faculty of Sciences and Engineering, Distinction given 17 times, 1999 to 2003, 2007 to 2020, Laval University.

7 times *Collective mentor of the graduating students at the Iron Ring Ceremony*, 2002-2005, 2012-2014.

18 times nominee in the category *Most outstanding teacher in the Mechanical engineering dept.*, Galas du Mérite étudiant 1997, 2001 to 2003, 2006 to 2013, 2017 to 2021 of l'Association des étudiant(e)s en sciences et génie de l'Université Laval, AESGUL.

HONORS AND AWARDS (continued)

Mention Très Honorable avec Félicitations for my doctoral thesis (highest distinction), École Nationale Supérieure de l'Aéronautique et de l'Espace (Sup'Aéro), Toulouse, France.

1967 Science and Engineering Scholarship of NSERC (1989). Prestigious postgraduate scholarship given to only 50 Canadian graduating students annually.

Donald Wills Douglas Prize Fellowship of California Institute of Technology (Graduate scholarship, 1989).

Prix d'excellence de l'Ordre des ingénieurs du Québec (1989).

McGill University: Ernest Brown Gold Medal for Highest Ability throughout the Undergraduate Course (1989). Faculty of Engineering. Great Distinction and University Scholar (1989). David E. and Ronnie Schouela Prize (best undergraduate thesis, Honours program, 1989). R.L. Weldon Scholarship (1988, 1987). J.W. McConnell Award (1987, 1986, 1985). Abe and Jennie Brock Award (1986).

Kreplin (1996). *Garteur 3D Shear Layer Experiment: Final Report. Mean Flow and Turbulence Measurements in the Boundary Layer and Wake of a Swept Wing*. Technical report GARTEUR TP-091. Volume 1: Description of Experiment, 236 pages. Volume 2: Results of Experiment, 224 pages.

C. Gleyzes, Y. Maciel (1996). *Étude expérimentale des couches visqueuses autour d'une aile en flèche*, Colloque ONERA 1996, Paris, France, 10-11 April 1996.

C. Gleyzes, Y. Maciel., M. Doussinault (1996). "*Étude des couches visqueuses turbulentes autour d'une aile en flèche*", Forum sur la turbulence ONERA, Paris, France, June 1996.

C. Gleyzes, Y. Maciel (1995). *Etude de l'écoulement autour de l'aile Garteur AD/AG07. Exploitation des résultats d'essais à F2*. Rapport Int. DERAT/ONERA no. 61, 83 pages.

Y. Maciel. (1994). *Etude expérimentale de l'écoulement cisailé, turbulent et fortement tridimensionnel autour de l'aile Garteur AD (AG07)*. Doctoral thesis (361 pages), École Nationale Supérieure de l'Aéronautique et de l'Espace (Sup'Aéro), Toulouse, France.

Y. Maciel, C. Gleyzes (1994). *Etude de l'écoulement autour de l'aile Garteur AD/AG07. Résultats de la cinquième campagne d'essais à F2*. Rapport technique GARTEUR AD (AG07) WP-24, 161 pages.

C. Gleyzes, Y. Maciel, J.H.M. Gooden, W. Reinders (1993). *Garteur 3D Shear Layer Experiment: Preliminary Test Phase Summary Report*. Rapport technique GARTEUR AD (AG07) TP-072, 74 pages.

C. Gleyzes, Y. Maciel (1993). *Etude de l'écoulement autour de l'aile Garteur AD/AG07. Résultats de la quatrième campagne d'essais à F2*. Rapport technique GARTEUR AD (AG07) WP-19, 117 pages.

C. Gleyzes, Y. Maciel (1992). *Etude de l'écoulement autour de l'aile Garteur AD/AG07. Résultats de la troisième campagne d'essais à F2*. Rapport technique GARTEUR AD (AG07) WP-14, 188 pages.

C. Gleyzes, Y. Maciel, J. Cousteix (1992). *Study of the flow around Garteur wing AD/AG07. Results of the preliminary test phase in F2*. Rapport technique GARTEUR AD (AG07) WP-07, 152 pages.

C. Gleyzes, Y. Maciel (1991). *Etude de l'écoulement autour de l'aile Garteur AD/AG07. Résultats de la deuxième campagne d'essais à F2*. Rapport technique GARTEUR AD (AG07), 133 pages.

R. Daebelliehn, M. Dominick, Y. Maciel, E. McKenney (1990). *Design of a Low-Drag, Dynamically Stable Body Shape for a Land-Speed Record Motorcycle*. M.Sc. study report, California Institute of Technology, Pasadena, California, 76 pages.

Y. Maciel (1989). *Part I. An Extension of Kryloff and Bogoliuboff's First Approximation Theory to Two-degree-of-freedom Non-linear Systems. Part II. Application of the Extended First Approximation Theory to the Study of Wake-induced Flutter of Power Transmission Conductors*. Bachelor's thesis, Honours program, McGill University, 159 pages.

Contributions to the profession and to collectivity

Co-manager of the reform of the Bachelor's of mechanical engineering program, Univ. Laval, 2010-2014.

Member of the program committee of the Bachelor's of physics engineering program, Univ. Laval, since 1998.

Examiner of the Bachelor's of mechanical engineering program of École Polytechnique de Montréal, for the Canadian Engineering Accreditation Board, 2011-2012.

Associate editor of the Transactions of the Canadian Society for Mechanical Engineering, 2003-2006.

Regular participation in review processes:

- Evaluation committees and referee for research grant applications (NSERC, FQRNT, Ministry of Defense of Canada, MITACS, Israel Science Foundation);

Contributions to the profession and to collectivity (continued)

- Master's and PhD thesis around the world.
- Journal papers (Journal of Fluid Mechanics, Physical Review Fluids, Physics of Fluids, Experiments in Fluids, International Journal of Heat and Fluid Flow, Flow Turbulence and Combustion, Journal of Turbulence, Journal of Fluids Engineering, AIAA Journal, Trans. CSME)
- Advisory committee, Eleventh International Symposium on Turbulence and Shear Flow Phenomena (TSFP-11), July 30-August 2, 2019, Grand Harbour Hotel, Southampton, UK
- Paper review subcommittee, Tenth International Symposium on Turbulence and Shear Flow Phenomena (TSFP-10), July 7-9, 2017, Swissotel, Chicago-IL, USA
- Scientific committee of the International Conference on Jets, Wakes and Separated Flows (ICJWSF2015), June 16-18, 2015, Stockholm, Sweden.
- Professor promotion applications (Royal Institute of Technology KTH, Stockholm, Sweden; Royal Military College of Canada)

Advisor, Programme science et technologie du secondaire, Ministère de l'Éducation du Québec, 2004.

Membre of a project for pedagogical applications of information technology: Outil pédagogique (didacticiel) pour l'apprentissage des mathématiques (OPEA-MAT), 1996-1999.

Activities to promote science and engineering among youth and general (Super Expo-Sciences Bell, National Space day, discovery projects for high schools and colleges, Doors Open events, local radio programs).
